Commissioner for Patents

1. The reply filed on 12/17/2008 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The election of the VEGF inhibitor 1-(chloroanilino)-4-(4-pyridylmethyl)phthalazine, along with the parenthetical designation (PTK787) refers to two different compounds, whereas the election requirement required the election of a single compound. The compound 1-(chloroanilino)-4-(4-pyridylmethyl)phthalazine has the structure:

In contrast, the specification at p. 38, 5th paragraph, indicates that PTK787, also known as Vatalanib, is the compound 1-(4-chloroanilino)-4-(4-pyridylmethyl)phthalazine, which has the structure:

Since these two compounds are different compounds, the election does not make clear which compound is being specified by the election. Applicant is required to specify a single VEGF inhibitor compound. See 37 CFR 1.111. Since the above-mentioned reply

appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
